

# Rohith A.

Systems-oriented student | Portfolio & Website Builder | Research-driven learner

## About Me

I am a disciplined, systems-first learner who enjoys turning complexity into calm, usable structures. My interests sit at the intersection of **biology, technology, and intelligent workflows**. Instead of chasing tools, I focus on *how* and *why* systems work — and then I build simple, reliable outputs from them.

I currently help **students** create clean, professional portfolios and **professionals** set up simple websites that communicate trust and clarity without unnecessary complexity.

---

## What I Do

### Student Portfolios

- Resume-based personal websites
- Project & certification showcase
- GitHub Pages hosting
- Clean, minimal design (no distractions)

### Professional Websites

- One-page or two-page websites
- Services, contact & WhatsApp integration
- Simple layouts focused on trust
- Fast setup and easy maintenance

## Selected Projects (Samples)

### Student Portfolio Website (Sample)

**Goal:** Help a final-year student present skills and projects clearly

**What I did:**

- Designed a clean single-page portfolio
- Structured sections for skills, projects, and contact
- Deployed using GitHub Pages

**Outcome:** A professional, shareable link suitable for recruiters and internships

### Simple Professional Website (Demo)

**Goal:** Create an online presence for a local professional

**What I did:**

- Built a minimal service-focused layout
- Added contact and WhatsApp call-to-action
- Ensured mobile-friendly design

**Outcome:** A clear, trustworthy website that explains services in seconds

---

## Tools & Systems I Work With

I choose tools intentionally, based on purpose — not trends.

- Obsidian, Notion, Anki (learning systems)
  - Zotero, SciSpace (research workflows)
  - GitHub & GitHub Pages (deployment)
  - n8n (basic automation)
  - Microsoft 365 & Google Workspace
-

## My Approach

- Simple over fancy
- Systems over shortcuts
- Clarity over noise

I believe good work should feel calm, understandable, and honest — both for the creator and the user.
